👤 CAREER OBJECTIVE

Enthusiastic and detail-oriented Full Stack Developer (MERN) with a strong Node Js, Express, MongoDB, and React foundation, eager to contribute technical skills and creativity to a dynamic development team. Adept at turning design concepts into responsive and user-friendly web applications and seeking an opportunity to grow and enhance skills in a collaborative and challenging environment.

📁 PERSONAL PROJECTS

DIGIMART (E-Commerce Store)

[GitHub\(Server\)](#) [GitHub\(Client\)](#) [Live Link](#)

Developed a mobile-friendly e-commerce store Where users can discover a wide range of products, from electronics and fashion to home essentials and more. It has user-friendly navigation and secure transactions.

Core Features:

- I have built a robust, scalable, and authenticated backend that provides RESTful APIs.
- Design and developed a mobile-friendly, SEO, and performance-optimized user interface that ensures a better user experience.
- Integrating Stripe payment gateway for secure transactions.

Technologies Used:

- Front-End:- React.js, Redux, react-router-dom, styled-components, Formik, Yup, Axios
- Back-End:- Node.js, Express.js, MongoDB, JsonWebToken(JWT), Stripe and Cloudinary
- Deployment & CI/CD:- Render and GitHub

FLOW JOBS (Job Finder)

[GitHub](#) [Live Link](#)

Flow Jobs is a digital destination for job hunting. Discover diverse job listings, utilize robust search filters, and easily submit applications, making it a convenient platform for employment search.

Core Features:

- Developed scalable RESTful API using Next.js API route and Postgres as database.
- Utilized Next.js server action to handle form submissions and data mutations in Next.js applications.

Technologies Used: Next.js, Tailwind CSS, shadcn/ui, Prisma, Postgres, Clerk, Vercel.

🧠 SKILLS & COMPETENCIES

- Expert in HTML, CSS/Tailwind CSS
- Proficient in JavaScript & TypeScript
- Good understanding of React JS, Redux & Next JS
- Knowledge of Node js, Express js, and MongoDB
- Version Control Systems & Remote Repository(Git and GitHub)
- Familiarity with RESTful APIs
- Good at problem-solving & debugging
- Responsive Web Design
- Web Performance Optimization
- SEO and security best practices
- Cross-Browser Compatibility

🎓 EDUCATION

BSC in Computer Science and Engineering.

(Atish Dipankar University of Science & Technology)

Diploma In Engineering.

(Technical School And College, Natore)
